Mesothelioma UK
Legal Panel

It is important, if you decide to take legal advice, that you approach solicitors that specialise in asbestos disease claims. Asbestos disease law is a distinct area of law; the procedures and practice are specific to that area. Mesothelioma UK has established a legal panel to help you source appropriate legal support.

On the reverse of this leaflet you will find the contact details for each of the companies on Mesothelioma UK's Legal Panel. This list is not exhaustive – there are other law firms specialising in asbestos disease claims.

Mesothelioma UK Legal Panel of specialist solicitors offer the following:

- Meetings in a place of your choice, including home visits
- Timely response times to enquiries
- Give clear and sound advice throughout
- Commitment in looking after your interests
- Accessible by phone or email
- No costs to patients or family (No win, No Fee in England and Wales)
- In Scotland there may be some deductions from damages and you should always check with your solicitor who will give more detail.
- Agree deadlines and timely feedback
- Technical Expertise throughout
- 100% of the compensation claim with no deductions for legal fees (unless claims under the Diffuse Mesothelioma Payment Scheme, where charges may differ)

Mesothelioma UK Legal Panel Solicitors make an annual contribution and are committed to supporting the charity through fundraising events, campaigns and promote donations through legacy giving. They will also provide you with information on how you can support Mesothelioma UK too.

Please note Mesothelioma UK does not accept any responsibility relating to the appointment of a law firm.
